

Making Wishes Come True!

On Monday, July 28th, 2008, The Sovereign General's Central Region held their 3rd annual charity golf tournament, co-sponsored by K&K Insurance Canada, at Wyndance Golf and Country Club. In addition to raising \$36,000 for The Children's Wish Foundation, the event provided an opportunity for key business partners to spend time with Sovereign staff.

Tyler Martin, a rookie on the Canadian Golf Tour, gave pointers on the driving range and participated in the Beat the Prof Challenge on one of the par threes.

The event was enjoyed by representatives of the sponsoring companies, The Children's Wish Foundation of Canada, brokers, reinsurers, MGA's, adjusting firms, restoration companies and legal firms.

There isn't room here to thank all the volunteers individually but check out the company's website (www.sovereigngeneral.com) for details of the event and a list of the volunteers.

Thank you to everyone who contributed their time and energy to make this such a successful event. Your efforts helped make Mitchell, Emma and Ilish's wishes come true.

The Sovereign General Insurance Company's staff volunteer their time and money in addition to the \$1,000,000 that the company has donated over the past five years. Thanks, Sovereign General, for making these wishes reality.

Making Wishes Come True!

Four-year-old Mitchell was diagnosed with Acute Lymphoblastic Lymphoma in 2006 and has been undergoing treatment at McMaster Children's Hospital in Hamilton ever since. Mitchell's most heartfelt wish was for an above-ground pool for himself and his older brother to enjoy. Mitchell and his brother watched and worked every hour as the pool was being installed this year. His family is very grateful and sends their thanks to all who support The Children's Wish Foundation and for making his dream possible.

Emma is a three-year-old from Oakville. She was diagnosed with Acute Lymphoblastic Leukemia last year. Emma struggles with a great deal of discomfort in her muscles and limbs due to her illness. She also wished for an above-ground pool. While she's happy to share it with her brothers, Carter and Tyler, Emma refers to it as "her" pool and receives a great deal of enjoyment from it.

Fifteen-year-old Ilish was referred to us in 2006 and is coping with Duchenne's Muscular Dystrophy. This disease affects the strength of muscle and often sees children confined to wheelchairs by their teens. This is the case for Ilish. Ilish wished to visit London, England with his family. He tells us the entire family had a great time, visiting Buckingham Palace, London Eye, Stonehenge and the British Museum. While touring "across the pond" Ilish sent us a postcard saying, "Heartfelt greetings from England! My dream has come true. There is so much still to see. I wear my Children's Wish badge and knapsack with pride and thanks to you all for this trip."
